Vall Companies  
GROUP

## COMPANY

Patel, Frivall and Cinco Villas operate one of the best Spanish facilities oriented on slaughtering, cutting and packing pork. These exceptional production plants, together with group's highly skilled workforce, enable the three companies to supply pork with an extraordinarily high quality and a high level of cut and standardization of processes to national and international markets. As a result, Patel, Frivall and Cinco Villas, are well known and respected brands on all markets, both in Spain and abroad.

## PROCESSES

### TECHNOLOGY FOR BETTER FOOD

Equipped with high technology, Patel, Frivall and Cinco Villa's facilities are designed to carry out the different stages of production process, from slaughter to packaging and freezing, quickly and using state-of-the-art equipment. A skilled workforce and the implementation of latest technologies for pork production, enable a very fast cutting process, together with quality controls that are performed continuously at the different process points, guarantee a high quality meat that retains all its natural benefits.

## PRODUCTS

### TOP QUALITY AT SOURCE

As members of the Vall Companies Group, Patel, Frivall and Cinco Villas are able to benefit from synergies with Spanish's leading livestock and meat producer and to guarantee the quality of their products at source. Quality control and monitoring systems are maintained during all stages of the production process, ensuring an optimal and consistent meat quality.

## INTEGRATED PRODUCTION SYSTEM

### VERTICALIZATION AND TRACEABILITY

Patel, Frivall and Cinco Villas operate an independent company-certified traceability system that controls all stages from the reception of pigs to the abattoir, monitoring the different pieces and batches, until they arrive to our client's facilities. The three meat plants also have the traceability system used by the company's supplier, Vall Companies Group, which enables them to access via internet to the information of any batch of pigs slaughtered in group's premises. Patel, Frivall and Cinco Villas, as part of the Vall Companies Group, are the only 100% vertical integrated pork plants in Spain.
